

**PRIYADARSHINI J L COLLEGE OF ENGINEERING
NAGPUR
ANNUAL PLACEMENT REPORT TILL MARCH 2020
BATCH : 2019 - 20**

Over View :

PJLCE is centrally located in the city of Nagpur, better known as Orange City'. It is a good combination of Cosmopolitanism and Tradition and is away from the rush and cut - throat competition of other big cities. It is destined to become the destination for an intentional industrial and trade center with the MIHAN project which is spread over a vast area promising technological advancement. Despite hectic industrial activity, Nagpur remains the cleanest and second greenest city in the country. It offers excellent academic and industrial exposure to engineering students. We have blend of students coming from PAN India and particularly from Maharashtra to take engineering education from one of very emerging and innovative engineering institute in central India. We as engineering institute promise our students for state or as infrastructure and best possible Training with placement assistance so that they can be competent to industries. We have encounter companies more than century from various sector , and we are able to achieve very good position even in pandemic situation

Message from Principal :

It is a privilege to serve as the Principal of PJLCE , a prestigious institution that has an established reputation of academic achievements and the prospects of a conducive learning environment. We are often come across different challenges at various intervals of time and the driving factor that keeps us going is “commitment” .

As a seasoned pedagogue, I have been passionate about nurturing the student community to the fullest extent possible specially making them ready for industry is the ultimate goal.

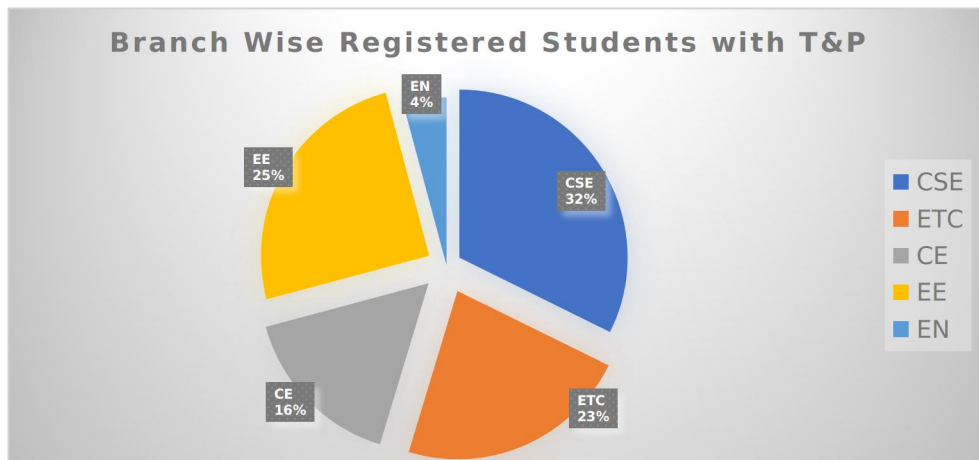

I believe in my role as a facilitator, to bring out the best in every student and encourage them to achieve their goals. Our institution believes that the very purpose of education is to turn mirrors into windows; in the sense –to make provision for a multitude of opportunities for the student community, to explore and enhance their capabilities. A team of experienced, excellent and dedicated faculty bestow upon the students, a holistic orientation for a better cognitive development.

I convey my best wishes to Training & placement team to do the best and to all my beloved students for achieving great success and scaling new heights in the days to come.

Training & Placement Activities:

Assessment of Students : To gauge the ability and scope of training for individual students

Lakshya : This workshop is to decide the goal and the plan with the help of which students can target their goal

Internshala Workshop : This event help students to understand the importance of internship before and after placement for pre-final and final year students

Campus recruitment Training : After identifying the gap we provide CRT to all eligible as well as non eligible students on case to case basis

Technical Training : there is always gap between industry expectation and classroom teaching hence technical training is must for all students specially for IT background students and non IT background . As per requirement we give technical training in campus itself

Mock TI , GD & PI : Mock technical interview , Group Discussion and personal interview is key before participating in campus drive.

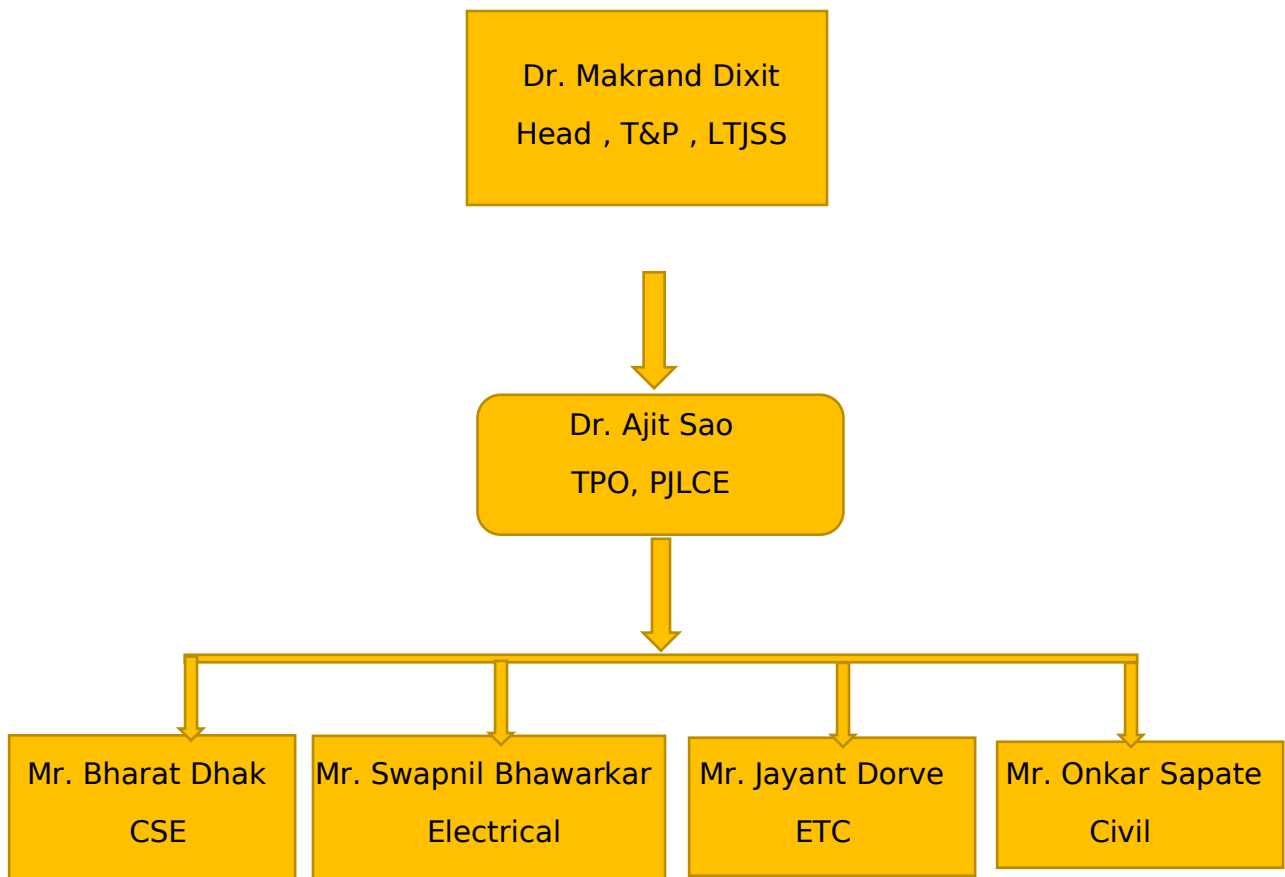

Institute & Industry Interaction : It help students to understand the corporate expectations so that preparation can be given specific direction.

Campus to Corporate workshop : This Workshop enable students right from what to wear to how to smile , how to prepare CV to how to introduce each and everything we cover in this last workshop before first campus knock our door.
